RE: Lab Technical Specialist – Hematology Position

Dear Edie Gonitzke,

I am writing to express my enthusiastic interest in the Lab Technical Specialist – Hematology position at Good Samaritan Hospital. As a certified Medical Laboratory Scientist with over 20 years of clinical laboratory experience, I am drawn to Good Samaritan due to your dedication to clinical excellence and compassionate, award-winning care. I look forward to utilizing my background in laboratory operations and quality management to support your frontline caregivers and advance your hematology services.

In my current role as a Medical Laboratory Scientist and Clinical Coach at Intermountain Health Medical Center, I specialize in high-volume testing across various departments, particularly in hematology, advanced instrument troubleshooting, and regulatory compliance. I have hands-on experience validating new hematology and other laboratory analyzers, as well as leading lot-to-lot quality control (QC) validations to minimize analytical errors. Furthermore, I regularly review proficiency testing results and perform root-cause analyses on discrepancies to ensure the highest standards of analytical compliance.

I understand that this Lab Technical Specialist role at Good Samaritan requires leading inventory control, supporting supervisors with validations, and training laboratory staff. Throughout my career, I have taken pride in mentoring, coaching, and educating laboratory staff at all levels, streamlining workflows, and implementing new laboratory processes to decrease turnaround times. I am also adept at creating and maintaining Standard Operating Procedures (SOPs) that ensure ongoing regulatory compliance.

I am very impressed by Good Samaritan's reputation as one of the top regional hospitals in Colorado and its commitment to comprehensive blood disorder and oncology care through the Cancer Centers of Colorado. I am prepared to contribute immediately to your laboratory's goals for reliable patient reporting and continuous process improvement.

Thank you for your time and consideration. I would welcome the opportunity to discuss how my technical expertise in hematology processes and my commitment to team education can directly benefit Good Samaritan Hospital. Please feel free to review my attached resume for further details on my qualifications.

Sincerely,

Huyen-Gwen Nguyen
