Medical Laboratory Scientist | MLS (ASCP) | 20+ Years of Clinical Laboratory Experience & Leadership

Personal Information

Name: Huyen-Gwen Nguyen
Location: Utah, USA
Contact info: Gwen.Nguyen@imail.org

About

Dedicated and detail-oriented Medical Laboratory Scientist with over 20 years of clinical experience in high-volume laboratory environments. Proven expertise across core lab specialties including hematology, chemistry, microbiology, urinalysis, serology, coagulation, and blood banking. Passionate about clinical coaching, developing standard operating procedures (SOPs), and training staff to maintain the highest standards of patient care and regulatory compliance. Adept at troubleshooting complex instrumentation, validating new testing methods, and directing daily workflows to ensure efficiency and accuracy.

Experience

Medical Laboratory Scientist - Clinical Coach

Intermountain Health | Nov 2022 – Present

- Perform phlebotomy, specimen processing, and comprehensive clinical laboratory tests (hematology, chemistry, urinalysis, coagulation, serology, microbiology, immunology, and blood bank)
- Evaluate the validity of complex patient test results across various disciplines prior to reporting
- Oversee routine maintenance, calibration, and troubleshooting of state-of-the-art laboratory testing equipment
- Contribute to quality control (QC) programs, ensuring immediate corrective actions are taken when necessary
- Facilitate hands-on training, competency assessment, and clinical coaching for current and new laboratory personnel

Medical Laboratory Scientist - Lead

ARUP South Jordan Clinical Laboratory | Nov 2011 – Nov 2022

- Directed the daily workflow and operations of a specific technical work section, ensuring efficient and timely testing
- Drafted, reviewed, and updated Standard Operating Procedures (SOPs) to ensure strict regulatory compliance
- Played a key role in implementing new tests, methods, and instruments by researching alternatives and conducting parallel testing
- Managed inventory monitored supply levels, and placed orders for essential laboratory supplies
- Participated in proficiency surveys and reviewed maintenance logs to guarantee compliance with accreditation standards
- Performed phlebotomy, specimen processing, and comprehensive clinical laboratory tests (hematology, chemistry, urinalysis, coagulation, serology, microbiology, immunology, and blood bank)
- Collaborated with supervisors to identify staff performance issues, provided documentation, and assisted with corrective action and written counseling

Senior Medical Technologist

University of Utah Healthcare Central Laboratory | May 2005 – Nov 2011

- Performed a wide variety of clinical laboratory tests in compliance with strict laboratory procedures
- Validated patient test results, calibrated testing equipment, and troubleshoot instrument malfunctions to minimize downtime
- Assisted in training team members and participated in quality control and continuous improvement initiatives

Education

Master of Education in Health and Wellness

American College of Education, Indianapolis, IN | 2026

Bachelor of Science in Medical Laboratory Science

University of Utah, Salt Lake City, UT | 2005

Licenses & Certifications

Medical Laboratory Scientist

American Society for Clinical Pathology (ASCP)

Issued Nov 2005

Skills and Endorsements

- Quality Control
- Process Improvement
- Clinical research

- Medical Technology
- Laboratory Medicine
- Standard Operating Procedures (SOPs)
- Team Leadership & Staff Training
- Regulatory Compliance
- Microsoft Office

Recommendations

- **Kaitlin Burtios, MLS (ASCP)-Supervisor at RRL Central Laboratory-Intermountain Health-8016357111-Kaitlin.Burtios@imail.org**

I would like to wholeheartedly nominate Huyen-Gwen Nguyen for the Living Our Values Everyday (L.O.V.E.) Award. Huyen-Gwen exemplifies what it truly means to live our values through her actions, her attitude, and the way she supports everyone around her—often quietly, but always impactfully. Huyen-Gwen is exceptionally smart, knowledgeable, and dependable. She consistently delivers high-quality work and willingly takes on a wide range of responsibilities, including performing pipette calibrations and stepping in wherever help is needed. No task is ever “not her job”—Huyen-Gwen reliably does anything she is asked with professionalism, attention to detail, and a positive mindset. Her technical competence and willingness to help ensure that operations run smoothly and efficiently. What truly sets Huyen-Gwen apart, however, is her character. She is incredibly positive and kind, creating a welcoming and supportive environment for coworkers. Huyen-Gwen regularly recognizes others and celebrates their contributions, often preferring to let others shine rather than seeking recognition for herself. She genuinely wants to see people feel appreciated, happy, and acknowledged, and she goes out of her way to uplift those around her. Despite her humility, Huyen-Gwen deserves recognition of her own. Her contributions, consistency, and selfless approach embody the spirit of the L.O.V.E. Award. Huyen-Gwen lives our values every single day—through her teamwork, her generosity, her technical excellence, and her unwavering kindness. She is the kind of employee who elevates not only our work, but our workplace culture as a whole. When you see Huyen-Gwen, you instantly feel happier and you know that you can trust her to get the job done well. Huyen-Gwen’s actions positively impact both daily operations and team culture. Her work on pipette calibrations supports accuracy, compliance, and reliable results, directly contributing to high-quality lab outcomes. She consistently completes tasks correctly and efficiently, reducing delays and rework. Huyen-Gwen also has a significant impact on team morale. She willingly helps with any task, often stepping in without being asked, which supports teammates and keeps work moving smoothly. Her positive attitude and kindness create a collaborative, supportive environment. Additionally, Huyen-Gwen regularly recognizes and uplifts others, helping coworkers feel valued and appreciated. By celebrating others’ successes and leading with humility, she reinforces a culture of respect, teamwork, and positively living our values every day.

I first met Huyen-Gwen in 2018; we worked together at ARUP Laboratories for a little over three years. At the time I was hired, Huyen-Gwen had already been working there for several years, so she quickly became a mentor and was instrumental in my development as a professional in the field. Huyen-Gwen is incredibly knowledgeable in a wide array of laboratory testing and is especially accomplished in rapid response laboratory settings in the areas of chemistry, hematology, serology, microbiology, immunohematology, and molecular methodologies. Not only has she demonstrated competence in all these areas, but she has also demonstrated patience and excellent coaching in aiding all those around her. She has been an absolute asset in my career, and she has impacted dozens of other professionals in the field in her varying roles as both a lead and Clinical Coach ARUP and Intermountain Health, respectively. Her knowledge, though thorough, does not compare to her work ethic. In the time we worked together at ARUP, she served as the lead for the lab. In this role, I saw her work tirelessly and diligently in executing her many roles including QC reviews, activity reports, maintenance, and any other thing she was ever asked to do. She put in hour after hour, and I can recall several occasions in which she stayed well past her shift to finish what she had started. She sees everything to an impressive degree and does exactly what she says she will do. With Huyen-Gwen, there are no shortcuts. She believes in what she does, but she also believes in being coachable. Even as a recent graduate and first-time lab tech, I can remember a time in which she asked my opinion on something because she “also had a lot to learn from me. Though accomplished, she has always remained humble in her accolades. In addition to being one of the most reliable co-workers I have ever had, Huyen-Gwen is also just a friendly, supportive person who brings positivity everywhere she goes. I am grateful to call her a friend. Even when our career paths diverged (though they have since reconverged as we are both at Intermountain Health), she always made it a point to check in and encourage me in the next steps in my career. I’ve not met many people dedicated to the work they do and the lives they save as Huyen-Gwen. If you have any questions or concerns about this letter, please feel free to contact me.
